Announced Audit

AUDIT EXECUTIVE SUMMARY:

Agroexportadora del Noroeste is a company dedicated to conventional tomato packaging in the packaging unit located in La Paz, Baja California Sur. The tomato is received and emptied by flushing with water where the company establishes to maintain the ORP of 680-900 mv, pH of 6-7 and chlorine 100-200 ppm, measurements are made every hour of these parameters, (water is re-circulated where the company establishes a daily water change or when the workday exceeds 9 hours a day), the next step is that the product is washed using sprays at a chlorine concentration of 150-200 ppm and a pH of 6-7, measurements are made every hour, the product is dried, selected, waxed, classified, packed, stored in a cold room at a temperature of 45-50 °F and shipped to the customer. During the audit, around 100 people were observed working in the facilities and 120 people work in high season. Production season from November to May in two stages of production. On-site allergen management was not observed. Destination market: USA and Canada. This is a recertification audit.

Addendum(s) included in the audit:
